IN THE SPECIFICATION:

Please replace the paragraph beginning at page 26, line 11, with the following rewritten paragraph:

- -In the event that the process exit was expected was expected, at block 150, the executive object 84 broadcasts (e.g., via the broadcast server object 100 and a broadcast client object) that the relevant process 90 has exited in an unexpected expected manner. In this way, further objects that may be required to take action upon the completion of the process, or that may be waiting on the results of a process, are advised and can proceed to take actions as appropriate. - -
